Didsbury Horses Win at Edmonton

W. J. Fulkert's horses attracted great attention at the Edmonton exhibition last week and were successful in bringing home a number of ribbons.

In the five-gaited class he won 1st, 2nd and 3rd with "The Dare," "Maypole" and "Laura La Plante," also taking 1st, 2nd and 3rd in the junior 5-gaited class.

"Laura La Plante" took 1st prize in the ladies' saddle-pony class and was declared reserve champion in the saddle class.

He also won 2nd prize in the 2-year-old Clyde stallion class.

On the last day of the fair Mr. Fulkert's entry "Peggy" won the high jump event. Flitting over the six 5-ft. hedges with beautiful jumps the Fulkert horse had no difficulty winning the ribbon.

This horse will give an exhibition of jumping at the Didsbury fair next Wednesday.

Mr. Fulkert gave exhibitions with his horses in front of the grandstand for three evenings.

The Edmonton Bulletin has this to say of the horses:

Blooded horses from the Blue-grass of "Old Kentucky" gave the grandstand crowds a thrill at the Edmonton exhibition on Tuesday night, when W. J. Fulkert, of Didsbury, showed a trio of the finest samples of aristocratic horseflesh seen in this man's town since the automobile became dominant in the west.

The three horses had improvements never boasted by the best car, however, and again and again the crowds cheered shrilly and clapped, as the cavorting steeds went through their paces.

They single-footed, trotted, paced with all the grace of a dancing master of the old school leading a minuet; knelt down at the word of command and held the crowds enthralled throughout their appearance. Never before has such a fine trio of horses been seen here at once.

The subject of the sermon at Zion Evangelical Church next Sunday morning will be "Spiritual Mountain Climbing." In the evening Rev. F. S. Spies will bring the message.

Horse Races at the Fair

The program of horse races at the fair on Wednesday next has been augmented by the addition of harness races.

In the running races there will be an open run for half-mile, best 2 out of 3 heats; half-mile pony race, 14.2 and under, best 2 out of 3 heats, and a relay race.

The harness race will be for one mile, best 2 out of 3 heats.

These events will make a good program of horse racing in addition to the other attractions provided.

A midway of sideshows, games and rides will be on the grounds to provide "all the fun of the fair."

Didsbury Canaries Play Drumheller Nationals

The Didsbury Canaries drew the Drumheller Nationals in the junior provincial softball playoffs and went to Drumheller for the first of the series of double-header games on Wednesday afternoon.

The Didsbury boys were under the handicap of having driven 90 miles in the heat and Drumheller proved too much for them.

With a score of 6-1 in favor the home team Didsbury are down 5 runs down in the play-offs. The second game will be played at Didsbury on Friday afternoon.

In the evening an exhibition game was played and Drumheller again got the best of it by a score of 10-6.

The following boys have been chosen to make up the team:

A. Brusso, R. Lyons, L. Berscht, R. Gulliver, H. Gulliver, Bruce Sympke, Allan Krebs, Jack Clark, Nerval Honey and Roman Hobbs.

Messrs. Larry Levens, C. R. Ford, and Lee Russell were kind enough to provide transportation for the boys, and E. Y. Woodcock is acting as manager of the team.

The return games will be played at Didsbury on Friday (tomorrow) at 2:30 and 6:30 p.m., when all the fans should be out to give their support to the local boys.

Mr. and Mrs. Ed. Marcus and family are vacationing at Banff and Waterton Lakes.

LOCAL & GENERAL

Mr. and Mrs. J. W. Hallen and family were visitors to Calgary on Monday.

Miss Rae Clements and Mr. C. R. Ford spent their vacation visiting friends at Alexco.

Mr. and Mrs. L. L. Ford returned Saturday evening from their honeymoon trip to British Columbia and Washington. They have taken up their residence on Hesper Street.

Mr. Tom Sharrman was exhibiting a cauliflower he had grown and taken from his garden on Friday last. It weighed 1 1/2 lbs. Tom apparently is pushing the season with vegetables.

Mr. and Mrs. Russell Berscht, who have been spending their honeymoon touring British Columbia and the coast cities, returned home on Friday evening.

Mr. and Mrs. Ranton and family left Sunday for Edmonton and South Cooking Lake. Mr. Ranton returned Monday, while the rest of the family will spend their vacation at their cottage at the lake.

Mr. and Mrs. Eddie Ford were entertained by a large number of friends to a shower at the Oddfellows Hall on Tuesday evening, and the happy couple were recipients of many beautiful and useful presents.

Mr. and Mrs. Alf. Weber, of Corral, Alberta, and Miss Lolita Weber, of Edmonton, Mrs. P. H. Haigh and little son Stanley, were visitors at the home of Mr. and Mrs. Reitzel.

Mrs. J. Gray, of Toronto, who has been visiting her daughter, Mrs. J. R. Cunningham, left for her home last week. She was accompanied to Calgary by her daughter and Mrs. P. H. Lantz.

Henry Oldhausen, a farmer residing east of Carstairs, appeared before Magistrate Gordon recently on a charge under the Lord's Day Act with working on a Sunday. He was fined \$5.00 and costs. Prosecution was ordered by the attorneys general as a result of complaints.

Mr. H. Morgan is attending the convention of the Alberta Postmasters' Association being held at Edmonton this week. Mr. Morgan is the president of the Association. He was accompanied by Mr. and Mrs. M. B. Clements, who will visit with their son, Mr. Harold Clements and family at Edmonton. Miss Laura Smith has charge of the office.

WEDDINGS.

McFARQUHAR-CREIGHTON

A quiet and pretty wedding was solemnized at the home of Mrs. A. Creighton at Calgary on Wednesday afternoon, July 19th, 1933, when her elder daughter, Mabel, was united in marriage to Mr. William A. McFarquhar, son of Mr. and Mrs. John McFarquhar, of Calgary. Rev. A. J. Mitchell, of Didsbury, officiated at the ceremony.

The bride was gowned in powder blue crepe with white accessories, and carried a colonial bouquet. She was attended by her sister, Miss Hazel Creighton, who wore a yellow model in floral crepe and a corsage of yellow tin roses. The bridegroom was attended by his brother, Mr. Harold McFarquhar.

Mr. and Mrs. McFarquhar are spending their honeymoon in Yellowstone Park and will make their home in Didsbury.

HOSEGOOD-SISSONS

A quiet, but pretty wedding was solemnized at St. Luke's Church, Red Deer by the Rev. W. T. H. Cripps at high noon, Tuesday, July 18th, 1933, when Dorothy Adelaide, eldest daughter of Mr. and Mrs. F. S. Sissons, of Glace, was united in marriage to James Harvey, eldest son of Mr. and Mrs. James Hosegood, of Didsbury.

The bride, who entered the church with her father, was charmingly gowned in white silk crepe, and carried a bouquet of American Beauty roses. She was attended by her sister, Miss Marion Sissons, and her cousin, Miss Ruth Sissons, of Edmonton. The bridegroom was attended by his brother, Mr. P. L. Hosegood and Mr. A. Sissons, of Glace.

After the signing of the register, the wedding party drove to the home of the bride's brother, where a breakfast was served. Later in the day the bridal couple left for a honeymoon in the mountains, and on their return will reside in their new home west of Didsbury.

SCHAFER-STAUTFER

A very pretty home wedding took place at the home of Mr. Oliver Stauffer on Wednesday, July 19th, 1933, when Miss Ella Stauffer became the bride of Mr. Valentine Schaffer, of Lindale, Alberta.

The ceremony, performed by the Rev. C. J. Hallman in the presence of fifty guests, was solemnized under a beautiful arch, the party taking its place to the strains of the Wedding March, played by Miss Mary Schaffer, sister of the groom.

The bride was becomingly dressed in white crepe, and the bridesmaid, Miss Opal Jackson, wore rose-colored crepe. The groom was supported by his brother, Clarence. Little Ruby Lemke, niece of the bride, was flower girl.

After the ceremony a buffet lunch

Come to the Fair Next Wednesday

Wednesday, August 2nd will be the big day of this summer season in Didsbury.

The secretary has already received a number of exhibits of livestock and produce and will be a busy man for the next two or three days. The entries close on Saturday night.

There will be a large exhibit of livestock, as all the leading stockmen in the district have expressed their intention of making entries.

The sports section of the exhibition is being well taken care of. The softball tournament will provide the fans with lots of real entertainment throughout the afternoon, and several horse races have been arranged.

Children's races, athletic events, and a tug-of-war will round out a full afternoon of attractions.

An exhibition of jumping will be given by the Fulkert mare "Peggy," ridden by Glen Fulkert.

This horse has been a persistent winner in the jumping events both at Calgary and Edmonton exhibitions.

The W.C.T.U. will have a booth on the ground to provide refreshments.

Messrs. Earl Spencer and Ernest Mercer, of Cardale, Alta. have been visiting with Mr. and Mrs. Geo. Parsons. They state that this country is in better condition than that around Cardale.

was enjoyed by all. The bride was the recipient of many useful and beautiful gifts.

The happy couple are taking a short honeymoon at Banff, after which they will be "at home" at Mr. Schaffer's pastorate, Lindale, Alberta.

Canada And Its Foreign Born

Because of the many uninformed and therefore inaccurate statements frequently heard to the effect that the population of the three prairie provinces of Canada are largely of foreign birth, a recent census bulletin issued from Ottawa, and based on the last census (1921), is of interest and value.

It is revealed that out of a total population of 2,353,529 in the three provinces, 1,898,574 are of British birth, and 544,955 of foreign birth, and of those born under the British flag no less than 1,492,657 were born in Canada.

But, it is frequently argued, these figures do not give a true picture of the racial division of our Western population inasmuch as many of those born in Canada were born of parents who themselves were foreign born and their children, although born in Canada, are, to all intents and purposes, the same as if born in foreign lands. While in many cases, probably most cases, this assumption is not a sound one, the census bulletin recently issued is of particular value in that it classifies the parentage of the entire population.

It is shown that the population of the three Western provinces having both parents born in Canada numbers 550,450, having both parents British born outside of Canada 517,403; having one parent Canadian born and the other British born 145,176. That is, 1,213,035 or more than one-half of the total population are at least second generation Canadian or British born. To these may be added another 191,509 where one parent is either Canadian born or British born, while the other is foreign born.

Contrasted with this is the population born of parents both of whom were foreign born. Their number for the three provinces is 945,725. Subtracting, therefore, the total foreign born of 544,955 from this figure, we find that the number born under the British flag, and mainly in Canada, of foreign born parents is only 400,770. These are first generation Canadians.

The figures are not only interesting but reassuring to those who are anxious that Canadian and British blood, customs and ideals shall predominate in this land. Another reassuring and gratifying fact is indicated by the figures that 191,509 of the population in these three provinces are the offspring of marriages contracted between Canadian born or British born men and women on the one hand with foreign born on the other hand. This inter-marriage between the races is bringing about the development of a distinctly Western type of Canadian, and one that gives promise of being a very fine type, physically strong, mentally alert, uniting in themselves the Anglo-Saxon love of liberty, respect for law and authority, capable in government, with the love of music, poetry, art, and handicrafts which characterizes the peoples of continental Europe.

Coincident with the publication of this recent census bulletin, Hon. C. H. Cahan, Secretary of State at Ottawa, issued a warning to judges within whose jurisdiction falls the duty of naturalization of aliens to exercise care in the performance of such duties. He drew attention to the danger of certain malcontents applying for naturalization solely in order to protect themselves from the danger of deportation, or, in other words, seeking Canadian citizenship not out of love for Canada, or to advance Canadian interests, but in order to secure for themselves greater freedom in undermining Canadian laws and institutions.

And a Saskatchewan judge, commenting on the same subject, is reported in the daily press as urging the Federal Government to see to it that applicants for naturalization are supplied with literature which will enable them to learn something about Canada. Some assistance, he said, should be given to those who wish to become Canadian citizens.

Canada has probably been somewhat careless in the freedom with which citizenship has been conferred upon alien residents in the past, and negligent of its duty to these people. All too frequently naturalization has been obtained solely in order that patent to homestead lands could be secured. Other thousands have taken out citizenship papers in order that they may vote, but possibly without any very intelligent idea of what the duties of true Canadian citizenship really involve.

Five years residence in Canada will not in itself make a Canadian citizen. Ability to read and to write does not in itself constitute intelligent citizenship. The mere possession of naturalization papers, while it does make a man or woman a citizen in the eyes of the law, does not necessarily make such person a citizen of Canada in the true meaning of the word "citizen."

It should be a matter of national policy to inculcate right ideas and high ideals in the minds of all newly created citizens. To that end it would seem that something more is required than so many years residence and the taking of the oath of allegiance on the one hand, and the handing over of a piece of official paper by the Government on the other hand. There should be some formal ceremony at which the vital significance of becoming a citizen of Canada would be emphasized.

We believe these new citizens would themselves welcome some such procedure. The vast majority of them have acquired a real love for Canada. They adopted it as home, and desire to make it that not only for themselves but for their descendants. They are anxious to serve Canada, to make it better and grander. They would like advice, inspiration and guidance. The State should provide it.

The Niagara Gorge, which is sometimes called the "geological clock" is about 25,000 years old.

National industries in Bolivia are speeding up production.

Any Looseness of the Bowels Is Always Dangerous

When the bowels become loose and diarrhoea, dysentery, summer complaint and other bowel troubles set in, immediate attention should be given and the discharges checked before they become serious.

To check these unnatural discharges there is a remedy in Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 38 years. It is rapid, reliable and effective in its action. A few doses is generally all that is required to give relief.

Get it by your drug or general store, put up only by The T. Millard Co., Limited, Toronto, Ont.

Japan's Pearl Crop

Planting Of 40,000 Acres Of Waters Largest In Years

The pearl plantings in Japan this year, in contrast to most crops, will be the largest in years. More than 40,000 acres of quiet waters have been sown with more than 3,000,000 pearl oysters, and thousands of people are employed. The pearl crop being planted now will not be harvested for seven years.

Millions of seed pearls or tiny bits of mother of pearl, are skillfully inserted into living oysters for the pearl crop. The oysters slowly proceed to cover these irritants with a secretion which transforms them into pearls. The oysters are placed in steel cages and suspended a few feet above the floor of the sea from great rafts. Twice a year they are brought to the surface, cleaned and treated, to prevent disease. Some 30 per cent. of the oysters bear fruit, but only about five per cent. are marketable.

The annual crop is valued at several million dollars.

STAIRS MADE HER GASP FOR BREATH

Penalty Of Excess Fat

Although she has lost 7 lbs. of her overweight, this woman finds that 17 lbs. has made a remarkable difference to her. There can certainly be nothing wrong with a reducing treatment that brings such increased energy and vigor.

Her letter reads:—"I am 53 years old and my height is 5 feet 3 inches. I weighed 154 lbs. For six months I have been taking a half-teaspoonful of Kruschen Salt, and the change in my diet. Now I am less round the hips and only weigh 147 lbs. dressed. But I feel lighter and can now run upstairs, which before used to make me gasp for breath. Everyone says how well and fit I look, as I am in a store and get no walking exercise at all. The results may not be startling, but the fact remains that I feel much better than of late years—not so heavy—and I now enjoy dancing."

Miss J. H. Kruschen is based on scientific principle—it is an ideal blend of 6 separate minerals which help glands, nerves, blood and body organs to function properly and maintain a splendid degree of health—it builds up energy and strength all the while your body training yourself down to a point of normal weight.

May Be Hereditary

Doctor Finds Some Eskimos Are Getting Back Extra Rib

The male of the species, among the Eskimos at least, seems at last to be getting back that extra rib that Adam is said to have lost when Eve was created. Dr. T. Stewart, the Smithsonian Institution announced, has found that the "lost rib" is coming back among some Eskimos. They have 25 ribs instead of the customary 24. Return of the 25th rib apparently indicates that evolution is still at work in the human race, the institution said. The 25th rib is giving more chest and abdomen space to individuals in which it appears. The extra rib may be hereditary. Some indication of this is seen in the fact that practically all of the 25th ribs are found among males and most of them grow among Eskimos living north of the Yukon River. Dr. Stewart has found the extra ribs in about 12 per cent of 200 Eskimo skeletons from Alaska that he has examined.

Used To Thunderstorms

So Common In Java People Do Not Notice Them

In Java thunderstorms are so common no one takes any notice of them. Many hundreds of thunderstorms, often severe ones, are experienced in the rainy season. For several months the sound of more or less distant thunder scarcely ever ceases, and it is only when there is a terrific crash right overhead that folks are conscious of the sound. In fact, the people of Java are so used to hearing thunder for a good part of the year that only when the storms cease do they realize that they have been living in a perpetual uproar.

Profits of the Australian National Bank last year were greater than in 1931.

The bay of Fundy covers an area of approximately 8,900 square miles.

DIXIE ONLY 20¢ A BIG PLUG

Declares War On Slums

Great Britain Starts Five-Year Drive Against Hordes Of Disease

Great Britain has declared a five-year war to the finish on her slums. Tumbledown alley dwellings, basement caves and insanitary "back-to-backs"—hotbeds of tuberculosis, rickets, anemia and other diseases—are slated to be wiped out.

The government's move against the plague spots as motivated by the prevailing low building costs and low rates of interest on money together with a desire to ease the pinch of unemployment.

To insure immediate action the minister of health has called upon all housing authorities in England and Wales to submit by Sept. 30 a series of programs drawn on the basis of clearing all such areas by 1938.

Each program is to include a list of the areas in each locality, the number of houses to be demolished, the number of inhabitants affected, a list of areas where improvement by reconditioning is necessary and time tables for complete clearance, improvement and rebuilding of the displaced dwellers.

"The time limit is the very essence of this program," says Sir Edward Hilton Young, Minister of Health. "The time limit must, of course, give reasonable time for the work, but it must be fixed, and fixed absolutely."

No one knows the complete extent of the slum problem in the land, though the estimate generally given is that 1,000,000 dwellings must go down for the programs from every area.

An up-to-date picture, however, will be available by Sept. 30, the deadline for the program from every area.

The great mass of the slum dwellings is more than a century old, harking back to the era of quick industrialization of the country when houses sprang up like mushrooms around the factories.

But the problem is not limited to the cities. Unhealthy conditions flourish in many villages and these, too, are on the books for destruction.

Among cities, the slum evil is general and is regarded as being at its worst in the industrial and mining areas. Liverpool, Manchester, Birmingham, Leeds, Bristol, Hull, Sheffield and scores of other cities have sordid, insanitary sections.

London, because of the great population crammed into a relatively small area, presents a problem of its own and it is believed that the five-year grace period may have to be lengthened for abolition of the sordid spots.

In the wake of the government's determination on action, a lively campaign is being pursued by the press to keep the spirit for wholesale and immediate reform at high pitch. The Archbishops of Canterbury and York have penned vigorous appeals and the Prince of Wales who knows great areas of the slums by periodic visits, has voiced the support of the royal family.

He (at 11 p.m.)—"Did you know I could imitate any bird you name?"

She—"No, I didn't. Can you imitate a humming pigeon?"

The heavy influx of tourists is boosting business in Italy.

Combating Disease

Death Rate From Diphtheria Is Lowered In Manitoba

Ten years ago the diphtheria death rate in Manitoba was 215 per 100,000, which meant that 150 children lost their lives in this province every year from this preventable disease. In 1923 immunization was started in Winnipeg, with the result that by 1929 the death rate for the whole province had been brought down to 10.3. In that year immunization was extended to parts of rural Manitoba, resulting in a further reduction of death rate to 5.2. In rural Manitoba since 1930 there have been 63 deaths in unimmunized territory and only 13 deaths in the much larger population of the immunized territory. There have been no deaths among immunized persons.—Winnipeg Tribune.

Wages Being Increased

New Westminister Lumber Mill Also Employing More Men

An increase of 10 per cent. in wages, affecting 750 men, has gone into effect at the Fraser Mills plant of the Western Lumber Co. Ltd., New Westminster, B.C.

The increase follows a better demand for lumber and an increase in price. The Fraser Mills plant is turning out a quarter of a million feet of lumber daily and the shingle mill is working double shift. Employment at the plant has increased from about 450 men to 750 since last winter.

While the bulk of lumber shipments are still going by ship cargo, the demand for rail shipments is increasing.

A Comfortable Margin

Population Of New York Nearly Million Behind London

The population of New York City according to a census by the New York Merchants' Association is now 7,218,000. This still leaves London the world's greatest city by a comfortable margin, its 1932 census showing a population of 8,202,818. Next to New York comes Berlin, with over 4,000,000, then Chicago with 3,376,000. There are eight cities in the world with a population of more than 2,000,000, and thirty-one with more than 1,000,000.

WORLD HAPPENINGS BRIEFLY TOLD

The Hopewell home of Col. and Mrs. Charles A. Lindbergh, from which their first born son was kidnapped in March, 1932, will become a children's welfare centre.

Slumbering citizens of Westmont, Quebec, be disturbed some night, the aldermen, meeting in council, decided to spend \$70 to provide mufflers for their fire engines.

Recently completed at a cost of more than \$1,000,000, arts and science building of University of Manitoba may be abandoned as a temporary economy measure, it is stated.

Foreign missionaries, including a number of Americans, in northeast Szechwan province, western China, have been forced to evacuate their stations as the result of incursions of Chinese Communists and Shenshi.

Miss Jean Barnes, a cowgirl of Butte, Mont., took 68 days to ride a horse 1,700 miles to the north pole. She has arranged to trade the horse for an aeroplane ride home. It will take about 12½ hours.

In a statement urging recognition of Russia, Senator Norris (R., Neb.) said he was reliably informed the Soviet wanted to buy from America \$10,000,000 of meat products, 1,000,000 bales of cotton and \$400,000,000 worth of machinery.

Great Britain has agreed to take 50,000 hogs a week from Canada for the next five years providing we can produce the right kind of hogs. Hon. D. G. McKenzie told delegates to the annual convention in Brandon of the Western Manitoba Board of Trade.

Rt. Hon. W. L. Mackenzie King, Leader of the Liberal Party in the House of Commons, will visit Alberta during August, according to announcement at Calgary by N. S. Lambert, Ottawa, secretary of the Liberal National Association.

President Eamon de Valera told thousands of his countrymen the Irish Free State would not wait for agreements from the world economic conference, but would proceed with its own plans for economic improvement.

Making the trip in the shortest time on record, Constable Norris Yates, of the Royal Canadian Mounted Police, "mashed" the 425 miles between Chesterfield Inlet and Churchill in seven days on one of his trips "cut" for mail.

Incurable Patients

Old Question Of Euthanasia Discussed by American Physicians

Delegates attending the American Institute of Homeopaths heard two doctors debate the question:

"Should physicians be given the legal right to dispose of incurable patients?"

Speaking in favor of euthanasia or medical-death, Dr. W. A. Guild of Chicago cited the case of a child monstrously saved from death at birth after six weeks of care.

He suggested a special court of humanitarians to hear and grant pleas of persons who wish to die. This idea was opposed by Dr. Alonzo C. Tenney, also of Chicago, who said legalized euthanasia would be abused.

Many Musicians Took Part

Largest Military Band Played At Aldershot Tattoo

The largest military band in the world took part in the tattoo held recently at Aldershot. It was part of the great army pageant played by 5,000 soldier actors in the Rushmore Valley before an audience of 36,000 children who came to Aldershot from London and all parts of the home counties. An army officer who knew all the behind-the-scenes secrets of the tattoo remarked: "There is nothing to touch that living carpet of muscled bands. There are 41 bands, 17 bandmasters, 14 drum-majors, including the tallest in the British army, who stands six feet two inches in his bonnet altogether 819 musicians."

During the recent strike of seamen in New Zealand inter-lam mail was delivered by aeroplane.

Pioneer Steamship Company

Canard Line Celebrates 93rd Anniversary Of Its Inception

This year the Canard Line will celebrate its 93rd anniversary by sending the "Aquitania" to Halifax, Nova Scotia, the first port touched by a Canard ship in America in the first year of its trans-Atlantic life, in 1840. The occasion will feature a week-end cruise to the Nova Scotian port.

The Canard Line's birthday, like that of the United States, falls on the Fourth of July, the first ship of the line, the "Britannia," leaving Liverpool, England, on that day in 1840, and calling at Halifax and Boston 93 years ago.

The Canard Line is the oldest trans-Atlantic steamship company—in fact, the first to operate across the Atlantic on a regular schedule. Previous to the regular sailings of the "Britannia," other steamships had crossed the ocean, but their voyages were entirely in the line of experiments. The Canard Line started to run on a weekly schedule in 1840.

The first ship to cross the ocean was the "Savannah," built in New York City. She sailed from the Georgia city for which she was named, on May 25th, 1819, arriving in Liverpool on June 29th, 35 days later. She did not rely solely upon her paddle-wheels; in fact, she trusted more to her sails, being under steam for less than 100 hours.

Twelve years later the first "Royal William" made the entire trans-Atlantic voyage under steam.

No further steamship venture was made until April 4th, 1838, when the "Sirius," left London, England, for New York with 94 passengers aboard. She was followed from Bristol four days later by the "Great Western," the first steamship especially built for the Atlantic passage. The "Great Western" made the trip in 15 days, two days less than the "Sirius," and arrived with 100 tons of coal left in her bunkers. The result was regarded as wonderful.

Samuel Canard was a close observer of all these happenings. Living at the time in Halifax, he had acquired several sailing vessels, which he carried mail between Newfoundland, Boston and Bermuda.

During the year 1838 the British Government had sent out circulars inviting bids for a faster and more reliable mode of transit for postal matter by steam vessels. One of these circulars found its way into the hands of Mr. Canard (later Sir Samuel) and he concluded that here was his golden opportunity.

Unable to raise necessary capital in Halifax, Mr. Canard sailed for England. He was now 50 years old. He received but little sympathy in London but as he had a letter of introduction to Robert Napier, a ship-builder on the Clyde, he went on to Glasgow. Mr. Napier welcomed him and introduced him to the two ablest shipping men in Great Britain—George Burns of Glasgow, Scotland, and David Macvicar of Liverpool, England. Between these men £270,000 capital was subscribed and Mr. Canard was in position to submit a tender for the conveyance of mails once every two weeks between Liverpool, Halifax and Boston.

This tender was lower than that made by the owners of the "Great Western." Mr. Canard's principal rivals, was accepted and a contract for seven years was let to the North American Steam Packet Company, the original name of the Canard Line.

To carry on this trade, plans for four steamers, the "Britannia," "Columbia," and "Caledonia" were drawn up and accepted during 1839 and the ships were launched early the next year, 1840.

The "Britannia," with 64 passengers, started on her maiden voyage from Liverpool to Boston on July 4th, 1840, and arrived in Boston 14 days and 8 hours later, including a stop at Halifax, considered at the time a rapid passage.

The mail service grew to such an extent that the "Hibernia" was added in 1843, and the "Cambria" in 1845.

In 1847, when the company's first mail contract had expired a new contract was entered into with the Canard Line and provided for weekly sailings from Liverpool to New York and Boston.

More ships followed, all being built of wood, but with no radical departure from the "Britannia" until the year 1852, when the iron screw steamer "Australia" and three later ships were built.

The company's first steel liner was the "Servia," built in 1881. She was the first Canard to be fitted with electricity. She was superbly fitted for those days and provided accommodation for 480 cabin and 750 third class passengers.

The "Campania" and "Lucania," built in 1892, were among the first big ships, registering 13,000 tons. Both were fast, the "Lucania" making the westward crossing from Queenstown in five days, seven hours, and twenty-three minutes. It was on this ship that Marconi experimented with and first introduced wireless telegraphy.

New quadruple propellers speeded the Canard Line's big liners—the "Aquitania," "Aquitania," and "Mauretania," through the seas. Thus the history of the Canard

ASSASSIN'S TARGET

Mme. Venizelos, wife of the ex-Premier of Greece, smiles bravely for the camera from the hospital bed in Athens, where she is recovering from four bullet wounds received when an assassin attempted the life of her husband. The ex-Premier escaped unhurt.

Line has to a great extent been the history of shipping, beginning with wooden side-wheeled, followed by the iron ship, the single screw, the steel ship, then twin, triple, and quadruple screws, and all built and propelled in the interest of the speedy transportation of mail between Great Britain and America.

Samuel Canard was knighted in 1859 because of his outstanding services in the Crimean War. He died in London, England, in 1864, in his 83rd year.

Thief Had Expensive Tastes

Took Only Valuable Articles From New York Tobacco Shop

A slender thief with an expensive taste in smokers' equipment made his way through two transoms and into the retail tobacco shop of Alfred Dunhill, of London, Inc., 514 Fifth Avenue, New York, where he looted thirty show-cases and carried off jewelry, cigar lighters, clocks and pipes valued at nearly \$25,000. There were two noteworthy things about the intruder, he was small and agile enough to pass through a pair of apertures no more than twelve inches high. He was discerning enough to ignore articles of silver. Nearly all the cigarette and vanity cases he selected were gold, and he took pipes only from the Grade A rack, where prices range from \$50 to \$65.

Conference Helped Trade

Ottawa Imperial Conference trade agreements have resulted in an increase of more than \$10,000,000 in Canada's exports to the United Kingdom during 1932, according to Hon. H. H. Stevens, Dominion Minister of Trade and Commerce. This had occurred, he added, while trade all over the world showed very marked declines.

Thirty miners are prospecting for coal under the Fifth of Forth, Scotland.

Westfield, England, will build a \$2,000,000 amusement pier.

SPANISH PRINCE AND CUBAN WIFE

Alfonso, Prince of the Asturias, eldest son of the ex-King of Spain, Cuba, and her sister, Maria, outside the Prince's hotel in Lausanne, Switzerland. He renounced his royal rights to wed her.

Life Really Begins At Forty

Los Angeles Professor Thinks Fear Of Dying Kills Many People

Men and women of middle age should not think they are treading a downward path. Life really begins at 40. Men should live to be 100, constantly growing in grace and mental power. Women grow ugly from vanity and fear of dying kills rather than actual old age.

These were observations of Frederick P. Woelner, professor of education at the University of California at Los Angeles. He related specific tests and studies of noted teachers to substantiate his beliefs.

"If a man dies before 60, something kills him, it isn't old age. Fear of death kills some people. If they don't think of dying they would live twice as long," commented Prof. Woelner.

"As long as a woman thinks she is young she retains her beauty. The idea of youth rather than rouge keeps her beautiful. Vanity is beauty's worst enemy. The woman with a lifted face wears a haunted expression more disfiguring than a double chin."

Prof. Woelner pointed out the laboratory findings of Prof. Thorndike of Columbia University, and the studies of Prof. Raymond Pearl, bearing out Woelner's belief that the human mind is strengthened with old age by proper education. He suggested that adults follow a course of intellectual study in summer schools and university courses.

Prodigies, it was explained, rarely retain their genius late in life. Many of the world's greatest achievements were attained by men and women late in life. The machine age and competitive ease of man's labors are responsible for increased mental faculties.

Not Looking For Charity

Man Appeared Poor But Had Fortune In Bills

An old man munching half a loaf, his clothes in tatters, excited kindly feelings of civility guards at Dundalk, Ireland, and they took him to the barracks to treat him to a square meal.

To the astonishment of all he extracted from his pocket \$50,000 in bills.

The old man, who refused to give his name, explained he had been his own banker throughout the bank troubles in the United States and had returned to Ireland, with his hoard after 46 years in the United States.

Distributing Radium

Product From Extract Plant At Port Hope Is Now Available

Chemists at the national research laboratories at Ottawa, bent on minute measuring apparatus recently, standardizing Canadian-produced radium. In a few days it will be sold to doctors, clinics and hospitals throughout the country. The radium extracted from Great Bear Lake deposits, came from the extraction plant at Port Hope, Ontario.

There are to be 60,000 hot-dog stands at the Chicago Exposition this summer. A century of progress!

Consumption of electric power in Italy continues to increase.

Coal Subsidy

One-Seventh Of A Cent A Mile On Coal Shipped From Saskatchewan Lignite Fields

Subsidy of one-seventh of a cent a mile on coal shipped from Saskatchewan lignite fields to points in Manitoba and as far east as Sioux Lookout, has been made effective by federal order-in-council.

Word of the passage of the order-in-council providing for a subsidy of one-seventh of a cent a mile, but not to exceed in any case a total of 40 cents a ton was received recently by officials of the Saskatchewan department of railways, labor and industries.

The freight concession will apply only on lignite coal shipped out of Saskatchewan to Manitoba and western Ontario points for industrial purposes only, and will not apply to anything under railroad lots.

The concession will be accorded only to mines established before December, 1931.

The rate concession will place Saskatchewan mines in a favored position in competition with coal from American mining fields for distribution in Manitoba.

The order-in-council provides for the freight concession being actually paid to the railways by the government, the adjustment to be made direct to the mine operators.

Ban On Socialists

Germany's Social Democratic Party Has Ceased To Exist

Germany's Social Democratic party, once the leader of Socialists the world over and the winner of the 1918 revolution, has ceased to exist as a legal political organization.

Chancellor Hitler's heavy hand, which first fell upon the Communists, has now descended upon the party which long was the leading one and was regarded as an impregnable bulwark of the post-war republic.

All speeches in recent days by Nazi leaders indicate the Hitler movement intends to claim 100 per cent, power in Germany.

A serious blow was dealt to department and chain stores in an order issued by Chancellor Hitler's commissar for business, Otto Aegener.

Department and chain stores are forbidden to maintain barber and beauty shops, photographic studios, bakeries, sausage factories, custom tailoring departments, watch repair and optical shops, automobile and bicycle repair shops, circulating libraries, banking and money exchange offices and furniture factories.

Secret police suspended for one week the National Deutsche Zeitung, one of whose editors is a nephew of Dr. Hugenberg.

Mechanism Of The Ear

Little Is Known As To How Ear Sound Is Conveyed To The Brain

The mechanism of the human ear has been known during long ages, but the manner in which it conveys definite information to the brain is another matter. The world is still far from a final pronouncement, however learnedly one may speak of sound-waves striking upon the drum of the ear and establishing a vibration which is communicated to the brain by a row of white threads attached to a series of wonderfully articulated bones. That the threads, like the aerials which catch the flutterings of the ether bearing sounds across the ocean, and give them rebirth exactly as they were born thousands of miles away, to the last squeak of the clarinet or chirp of the piccolo; translate to human brains the meaning conveyed by the air vibrations which tap against the eardrum of the tympanum does not greatly help. A writer says: "We call the threads nerves, but how the tympanum adapts itself by contraction and relaxation to the different pitch of sound without our will intervening we have no idea. We know only that it does."

Looks Like Prosperity

What is this? Prosperity turning the corner? A new Broadway cafeteria in New York announces that the pots in its windows will be given away for five dollars. Light-fingered gentry need not come around. The coins will be cemented hard and fast.

Didsbury Lodge No. 18, I.O.O.F.

Is Your Subscription Paid Up?

The "Managed" Dollar.

President Roosevelt wants a dollar that will be worth as much in exchange as in another. This has never been true of any currency, in any country, at any time.

The 1926 American dollar would have purchased \$1.40 worth of commodities in 1913; \$1.17 in 1917; only 80 cents worth in 1928; \$1.00 in 1929; \$1.37 in 1933, and today about \$1.40.

How can business operate when its monetary standard of measure is so variable? It is like trying to measure things with a rubber yardstick. Up to now, proposals to stabilize the price of managed currency have been dismissed as socialist economic nostrums.

President Roosevelt now contemplates a method for stabilizing prices, for good and all. He hopes to achieve this according to his intimates, by using the extraordinary power given him by Congress, to reduce the amount of gold in the dollar by 50 per cent. How would this be done? Simply by varying the gold content of the dollar. If prices got too high, more gold would be added. If prices got too low, gold would be taken away.

In the past the dollar has been used to its content of gold, but variable in its purchasing power. By the new scheme the dollar would be fixed in its purchasing power, but amenable to gold content.

What should be taken as the unit price for the dollar? Obviously, no one arbitrary figure must be selected. The Labor Department issues a table showing weekly price changes of some 1,800 commodities. From this table an average figure is computed which the commodity price index.

It is proposed to hitch the "managed dollar" to the commodity price index. Gold would be added to, or subtracted from the dollar, as the index tended to get up or down. Here the dollar would be manipulated, says Christian Science Monitor.

Rural Farm Family Expenses.

"Few facts are available for reference on the cost of living in rural farm homes in Canada," says the Economic Annals, published by the Dominion department of agriculture. However, in a survey of 137 farms in the Red River Valley of Manitoba in 1931 by the Dominion economics branch data on family living were compiled from 127 of the records. Cash expenditures per family averaged \$688.32, while farm-furnished items amounted to \$139.42, making a total of \$827.74 for the average cost of living during the year.

Cash expenditures were 66.42 per cent of the total, farm-furnished items averaging 39.53 per cent. Fully 60.42 per cent of the total goods and services was spent on food, the average expense for food being \$344.84. Over half of this amount was supplied from the farm in butter, eggs, milk, garden produce and meats. Clothing accounted for 9.58 per cent of the total, or an average of \$79.14 per family. The average farm family spent \$45.34 for health purposes, \$37.70 on education, \$14.29 on amusement, \$20.01 on churches and charity, and \$24.02 as for the amount spent on operating the automobile charged to family living.

WEEKLY SERMONETTE

"These things I command you, that ye love one another"—John 15:17

WEEKLY JOKE

"Newspapers are one-sided."
"How is that?"
"They always make a fuss when a famous man dies, but never when a famous man is born."

NOTICE

The Pioneer Elevator will be CLOSED from JULY 30th until AUGUST 15th.
J. Bishop.

Field Day Arranged August 5th at Olds School of Agriculture

A field day has been arranged for Saturday, August 5th at the Olds School of Agriculture. This will afford a splendid opportunity for a picnic holiday before harvest gets underway. Grain crops will be at an interesting stage of development; orchards, gardens and grounds will be open to inspection, with competent guides. The herds of Shorthorn and Ayrshire cattle, Yorkshire hogs, Percheron horses and Shropshire sheep, will be on display.

The school buildings, laboratories, and equipment can be inspected by 651 friends and new, particularly those who have sons and daughters who are interested in courses in agriculture or domestic science.

Several outside speakers are expected to be present.

Those bringing basket lunches will be able to get tea, coffee and milk at the school.

Farm Women's Week at the O.S.A.

The fourth annual program for women at the Olds School of Agriculture has been arranged for the week beginning July 31st. This week has been greatly enjoyed in past years, and applications are now being received for this year's course. A program and full particulars will be sent on request.

NEIGHBORS.

When you came into the world, it was the neighbors who cheered your parents by praising your first smile.

Now that you are a man, with a citizen's responsibilities, it is your neighbors who help carry these responsibilities and who stand by to help you in your defeat and to cheer you in your victories.

When you die, your neighbors will shed a few tears and sing a few songs, and say a prayer for you.

When you have a favor to bestow, even though it be only the favor of your patronage, wouldn't it be good sportsmanship to bestow that favor upon your neighbor?

In a thousand ways you are a partner in business with every man in your hometown. Your interests are common. If all your neighbors should fail, you wouldn't remain in business a week. If all your neighbors succeed, you almost certainly will succeed with them.

So, when you find yourself in need of a monkey wrench, a pair of pants, shoes, a new bill, groceries, etc., or an insurance policy—to buy it from your neighbor is the next best thing to paying it from yourself.

Melvin Notes

A number of the W.I. ladies are attending the W.I. conference at Carstairs this week.

Misses Lilian and Helen Kyncl spent Sunday with Mr. and Mrs. A. Krebs.

Mr. and Mrs. L. Chandler and family spent Sunday with Mr. and Mrs. Roscoe Irwin.

Mr. and Mrs. Harold Bliss, of Bowden, spent the weekend with Mr. and Mrs. A. Krebs.

Mr. and Mrs. Lowrie, of Gem, Alberta, are guests of Mr. and Mrs. John Clarke.

Mr. and Mrs. Jim Shiels, from east of town, spent Tuesday with Mr. and Mrs. Peter Johnston.

A number of the Melvin ball fans attended the ball tournament at Drummheller.

Misses Dorothy Young and Marion Johnston are spending the week at Sylvan and Gull Lakes, and with friends at Morningside.

Mr. and Mrs. G. Carlson have as guests this week, Mr. and Mrs. Windsor and little Billy, of High River, and Mr. and Mrs. McMurray and Eva, of Westcott.

Ormond Phillipson, Frank Moyle, Carlton Leeson and Randolph Johnston had a very enjoyable motor trip on Sunday, viewing the country west of Sundre to the foothills.

Burnside Notes.

Don't forget the dance in Lone Pine Hall tomorrow evening, Friday, July 28th.

There will be a camp meeting held every evening next week, also next Sunday, in Lone Pine Hall, with Miss Eby in charge. Miss Zook of Sunnyslope will assist.

Miss Annetta Shiels is spending a week with Miss Mina Viney.

Miss Sadie McLean spent the weekend with Mrs. H. Fischer, west of town.

Mr. John Ehret and his mother, Mrs. Harsch, spent Sunday evening with Mr. and Mrs. Chris Ehret.

Miss Zook and Miss Reist are staying with Mrs. B. Woods while conducting the bible vacation school.

Mrs. H. B. Campbell and daughters were seen on the beach at Kiever's Lake on Sunday.

Mr. Jack Doyle, Jr., of Morrin, is visiting his uncle, Mr. Percy Saunders.

Miss Alberta and Mr. Fred Metz, Howard Dedels, Mr. and Mrs. Joe Anderson, Mr. and Mrs. Walter McCulloch, Miss Helen Pross, and the Misses Rosie and Ardelta Bittner were Sunday evening supper visitors with Mr. and Mrs. Otto Bittner.

Mr. and Mrs. W. L. Tolton, of Acme, called on Mrs. McAllister and other friends in the district on Tuesday. Mrs. Tolton will be remembered by many here, having lived in this district for many years with her deceased husband, Mr. Frank Reek.

Young People's Camp.

A number of cars and trucks loaded with picnickers left Wednesday forenoon to join in a picnic with the other members of Zion Evangelical Sunday School, who are camped on the Little Red Deer at Eagle Hill. The young people will be in camp for a week under the supervision of Rev. and Mrs. H. J. Wood. The mornings are devoted to religious and educational exercises, and the afternoons taken up with hiking, swimming and sports.

BIRTHS

July 3rd, 1933, to Mr. and Mrs. S. C. Baughman, a son.

July 16th, 1933, to Mr. and Mrs. Alex Stewart, a son.

July 16th, 1933, to Mr. and Mrs. E. K. James, a son.

July 21st, 1933, to Mr. and Mrs. Murdoch Sinclair, a son.

LOCAL & GENERAL

Mrs. G. Smith, Miss Lucille Smith, and Mr. Milt Ford are vacationing in the Banff National Park.

Miss M. Saugstad, who spent her vacation at Portland, Oregon, returned to her duties at the telephone office on Monday.

Mrs. C. Radcliffe and family returned to their home at Kimberley, B.C. on Monday, after a 2-months' visit with her parents here.

Mr. J. A. McGhee and family left Sunday for Vancouver. They will spend a two-weeks' vacation at the coast.

We are pleased to report that Mr. A. R. Kendrick, who is taking medical treatment at the Holy Cross Hospital, Calgary, is showing some improvement.

Mrs. Rebarge, of Three River Falls, Minnesota, is visiting her father, Mr. N. O. Nelson at Westerdale, and her brother, Mr. E. M. Nelson.

A shower will be held in the Mountain View Community Hall next Wednesday evening, August 2, for the newlyweds, Mr. and Mrs. Eddie Ford.

Kiever's Lake is a very popular resort these days for the people east of town, and on Sunday from 50 to 100 cars can be seen parked along the beach. Both bathing and boating are the attractions.

The annual Sunday school picnic of Zion Evangelical Church was held at the Christian Endeavor Young People's Camp at the Little Red Deer, a mile north of Eagle Hill bridge.

Members of the Albright Brotherhood and their friends held a surprise party at the home of Mr. and Mrs. J. V. Berscht on Monday evening to welcome home the newlyweds, Mr. and Mrs. Russell Berscht.

Mr. and Mrs. Harold Reiber, who have been visiting their parents here for the past few weeks, returned this week to California. Mr. Reiber, who recently received his doctor's degree at the Berkeley University, has obtained a position in the research department of the Union Oil Co. at Wilmington, Cal.

Ward Keith, Jack McCloy, Jim McGhee and Jack Fleury had real success fishing in the Clearwater district last week. They got about 150 trout and Rocky Mountain whitefish in their creek, but as we understand it, a number of the big ones got away. They say it was well worth while getting sunburnt considering the sport they had.
